Resistance to Chemicals

Easy to Clean

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm

PATIO PACK LAYING SOLUTIONS

Lancosa outdoor porcelain is a high-quality and durable flooring material that is designed to withstand the rigors of outdoor environments. It provides both functional and aesthetic benefits, making it a popular choice for outdoor design.

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm

INSTALLATION ON GRASS

Where there are lawns, be they in public areas or private homes, the tiles must be dry laid on top of this grass without using any building adhesives. This allows users to change the paving at any time, reusing the same material several times.

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm

INSTALLATION ON SAND

The tiles can be laid dry by simply placing them in the desired position, without the need for building adhesives. This means the tiling is easily levelled out on top of the gravel and is ready for use immediately afterwards.

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm

INSTALLATION ON GRAVEL

Apart from the attractive decorative effects that can be created, this system is particularly recommended in areas where drainage of the water in the underlying soil is a problem, and also for cement or concrete laying beds, such as on balconies or terraces.

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm

TRADITIONAL LAYING

The advanced technical features of the 2 cm-thick collections, combined with an adhesive laying technique in screed, allow users to create perfectly stable and exceptionally hard-wearing surfaces. The 20mm slabs used with this solution can withstand both moving and parked vehicles.

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm

RAISED PEDESTAL LAYING

20mm porcelain stoneware slabs can be used in conjunction with a support framework consisting of polypropylene bearing struts.

The support is fully adjustable and allows the creation, on any substrate, of raised floors, allowing for the installation of electrical and water systems in the cavity below.

20mm | OUTDOOR PORCELAIN TILES

600X600mm | 60X60cm | 600X900mm | 60X90cm
600X1200mm | 60X120cm
